Typical Home Sprinklers To Match Any Décor

- ◆ Available in a variety of colours including brass, chrome and white finish.
- ◆ All sprinklers are "heat" activated. Smoke will not operate a sprinkler.
- ◆ One-at-a-time activation. Only one sprinkler will activate over the fire. If the fire continues to spread to another area, a second sprinkler will operate.

Family Owned and Operated

Fire Sprinklers For Your Home?

Evolution of Fire Suppression

1800's Bucket Brigade
Average response time
60 minutes.

1800 - 1900's Horse Drawn Truck
Average response time 45 minutes.

Late 1900's Diesel Powered Truck
Average response time 8-12 minutes.

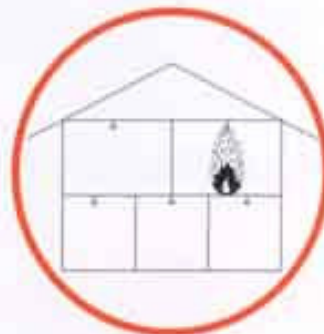

21st Century State of the Art Sprinklers
Average response time
30-60 seconds.

Fire Sprinkler Facts

- ◆ Fire sprinklers save lives, reduce property loss and can even help cut homeowner insurance premiums.
- ◆ Home fire sprinklers can contain and may even extinguish a fire in less time than it would take the fire department to arrive on the scene.
- ◆ Installing both smoke alarms and a fire sprinkler system reduces the risk of death in a home fire by 82%, relative to having neither.
- ◆ Only the sprinkler closest to the fire will activate, spraying water directly on the fire.
- ◆ Ninety percent of fires are contained by the operation of just one sprinkler.
- ◆ Home fire sprinklers use only a fraction of the water used by fire department hoses.
- ◆ Nothing & no one survives FLASHOVER.
- ◆ Fire Sprinklers use less than 210 gallons of water to put out an average fire. Fire Fighters use more than 3,290 for an average fire.
- ◆ With sprinklers an average fire will cause \$2,898 in damage. Without sprinklers an average fire will cause \$25,429 in damage.

*Give us a call -
you'll be glad you did.*

One-At-A-Time Activation

Only the sprinkler over the fire activates
and is **only** heat activated.
This state of the art technology
reduces water damage in your home.

For existing homes and secondary suites ask about the "Deco Shield" system. The modular system is surface-mounted on walls and ceiling to cover pipes, saving time and money. It can be painted to match any decor.

Complete Design and Installation

– We Service What We Sell –

- ◆ N.I.C.E.T. level 4 sprinkler design technician for a complete design package. We are familiar with all city requirements in the Lower Mainland to assure you on time delivery of your installation.
- ◆ Industries First 5 Year Limited Warranty.
- ◆ For as long as you own your home – Free Replacement Sprinklers, including all labour, if you have a fire and the sprinkler system activates.
- ◆ All our Installers are fully certified tradesmen; as required by law. Most have over ten years experience installing home sprinklers.
- ◆ We do not "Subcontract" our work. This assures you of a top quality job done right the first time avoiding costly time delays.
